

CPI Biennial Health, Safety and Industry Conference

'Keeping our people safe, motivated and informed'

Tuesday 9 July 2019

Chesford Grange Hotel, Kenilworth

PROGRAMME

Key Speakers

Opening Key Note Address
Miles Roberts, Group Chief Executive,
DS Smith plc

PABIAC Strategy 2019 – 2023 Official Launch
Martin Temple CBE,
HSE Chair

Plenary Session

Richard Stanton MBE

Richard (Rick) is a British civilian cave diver who specialises in rescues through the Cave Rescue Organisation and the British Cave Rescue Council.

In 2018 he played a leading role in the Tham Luang youth soccer team cave rescue. Rick and diving partner John Volanthen were the first to make contact with the team and played a leading role in the successful rescue thereafter.

Rick will give an unforgettable presentation, drawing on his experiences as a diver over many years. He will use the cave rescue last year to illustrate how he managed the risks, planning, emergency planning, teamwork, leadership, and the importance of the support needed to carry out this delicate rescue.

Programme of Events

Monday 8 July 2019

Garden and Terrace

18:30 – 19:30 Drinks Reception
 19:30 – 21:30 BBQ

Tuesday 9 July 2019

Kenilworth Foyer | The Grange

08:00 – 09:00 Registration and Exhibition

Events Centre Foyer

08:00 – 09:00 Sponsors Breakfast Sessions
 08:00 – 08:20 Hyster Europe
 08:30 – 08:50 PILZ Automation Technology

Kenilworth Suite

09:15 – 09:20 **Conference Introduction**
 Andrew Braund, Director of Health & Safety, CPI

09:20 – 09:50 **Opening Key Note Address**
 Miles Roberts, Group Chief Executive, DS Smith plc

09:50 – 10:15 **PABIAC Strategy 2019 – 2023 Official Launch**
 Martin Temple CBE, HSE Chair

10:15 – 10:40 **The Future of UK Manufacturing**
 Rory Wallace, Deputy Director Energy Intensive Industries and AgriTech, BEIS
 Seamus Nevin, Chief Economist, Make UK

The Grange

10:40 – 11:10 Coffee Break and Exhibition

Syndicate Rooms

11:15 – 12:30 Pre-booked sessions (see sessions opposite)

The Grange

12:30 – 13:30 Lunch and Exhibition

Syndicate Rooms

13:35 – 14:45 Pre-booked sessions (see sessions opposite)

The Grange

14:45 – 15:10 Coffee Break and Exhibition

Kenilworth Suite

15:15 – 16:00 **Plenary Session**
 Richard Stanton MBE

16:00 – 16:15 **Challenges Ahead**
 Andrew Large, Director General, CPI

16:15 – 16:30 **Closing Address**
 Richard Coward, CPI President

HEALTH AND SAFETY PROGRAMME	SESSION 1 <i>Leadership, engagement and collaboration</i>	11:15 KENILWORTH 1
	<p>It is recognised that health, safety and wellbeing management systems are most successful if they're embedded in an organisation's culture – if everyone, from the shop floor to the boardroom is engaged and committed to making it work. Top management leadership ensures that an organisation has in place a sound, functional management system that incorporates commitment, responsibility and accountability.</p> <p>In this session you will hear how you can develop, lead and promote a positive health and safety culture within your company, and how one company gained ISO 45001 accreditation, and is applying the new standard within the organisation.</p>	<p>Speakers:</p> <p>Paul Freeman Director, Paul Freeman Enterprise Ltd</p> <p>Terry Stears Risk Director, Portals Overton</p> <p>George Craig EHSS Manager, Portals Overton</p>

INDUSTRY PROGRAMME	SESSION 4 <i>Labour Skills Diversity</i>	11:15 PROSPERO
	<p>Changes in manufacturing technology, together with the impact of Brexit on cross-European labour movement and the challenges of attracting new recruits into manufacturing are all impacting on the future prospects of the UK's Paper-based Industries.</p> <p>This session will look at how the industry will meet its future needs for labour and skills, with particular reference to improving diversity and enabling the industry to recruit from all sections of society.</p>	<p>Speakers:</p> <p>Daniel Johnson Head of Product Services, Institute of Business Ethics</p> <p>David Nicholson Group HR Director, James Cropper plc</p> <p>Professor Bill Sampson Head of School of Materials, University of Manchester</p> <p>Janet Marshall HR Manager, Arjowiggins</p>

HEALTH AND SAFETY PROGRAMME	SESSION 7 <i>Leadership, engagement and collaboration</i>	13:35 KENILWORTH 1
	<p>Leadership, engagement and collaboration extends to more than just safety, and if we are to embrace ill-health, stress and mental wellbeing as part of our agenda, we need to ensure we have the right attitude and necessary skills.</p> <p>The speakers in this session will discuss leadership, engagement and collaboration in its broadest terms, and how a different approach to measuring a company's health and safety performance goes beyond measuring accident/incident rates.</p>	<p>Speakers:</p> <p>Dr Carolyn Yeoman Highley Yeoman Limited</p> <p>Bud Hudspith National H&S Advisor, Unite the Union</p>

INDUSTRY PROGRAMME	SESSION 10 <i>Recyclability & Extended Producer Responsibility</i>	13:35 OBERON
	<p>Since the last CPI Conference, a swathe of environmental legislation has been passed or is being considered, which will impact our industry. Driven by public and political sentiment, the EU Circular Economy Package, which the UK Government has indicated it will transpose come what may with Brexit, demands increasing paper and board recycling rates and a significant additional contribution to the funding of collections by producers.</p> <p>In addition, the Resources and Waste Strategy, Deposit Return Schemes, the Single Use Plastics directive, Consistent Collections and proposed changes to the current EPR system are all likely to have impact and bring change.</p>	<p>Speakers:</p> <p>Dr Adam Read External Affairs Director, SUEZ</p> <p>Phil Conran Chair, Defra Advisory Panel on Packaging (ACP)</p> <p>Kevin Vyse Director, OPRL Ltd</p>

SESSION 2 **11:15**
Work-related stress, health and wellbeing **HAMLET**

We shouldn't see health and wellbeing as something different than safety. With a safety issue we look at protecting the person from a physical hazard, but organisations should look closely at what they are doing to protect the person from a psychological hazard.

Dr Sarah Hattam is a practicing GP with a special interest in workplace health, wellbeing and especially mental health and work (and non-work) related stress. In this interactive session, Sarah will talk about the common issues she deals with on a daily basis, while Sarah Booth will highlight the impact of fatigue and shift work on performance, and the countermeasures that organisations can introduce.

Speakers:

Dr Sarah Hattam
Concilio Health

Sarah Booth
Research Manager,
Clockwork Research

SESSION 3 **11:15**
Vehicle, material movement and storage stability **OTHELLO**

Over recent years there has been a steady increase in the number of transport and material related incidents, some of which have resulted in serious injury. Vehicle and material movement doesn't stop when loads leave the site, and companies still have a responsibility for the material they transport when on the road.

This session will start with a case study and how, following an incident, one company reviewed its whole internal transport procedures and the measures it has since implemented. This will be followed by Andy Binns who will give an insight into the role of Highways England and dealing with the aftermath of a load shift incident.

Speakers:

Mark Ryan
Group Health,
Safety and
Environment
Manager,
Logson Group

Andy Binns
Traffic Officer,
Highways England

SESSION 5 **11:15**
Environmental Permitting **KENILWORTH BAR**

With high impact changes to environmental permitting on the horizon, this session will discuss the way forward for sector permits with the integration of Abstraction Licencing into mill permits, defining UK BAT & BAT AELs, requirements for hitherto exempt activities such as waste paper depots, to apply for permits.

Changes to sector permits brings in a requirement for sites to produce Fire Prevention Plans. The session will hear from the Wood Recyclers Association who have produced a Sector Guide on writing Fire Prevention Plans in collaboration with the EA.

Speakers:

Julie Dracup
Senior Advisor;
Abstraction, EA

Spence Seaman
Senior Advisor; Paper,
Pulp & Textiles, EA

Julia Turner
Executive Director,
Wood Recyclers
Association

Peter Buckley
Senior Fire Advisor -
FPPs, EA

SESSION 6 **11:15**
Paper & Board in Food Contact **OBERON**

Producers of food contact materials have always had a responsibility to manufacture their materials in accordance with the 'Framework' Regulation. But in the absence of specific (EU) legislation for paper & board, how does industry demonstrate the suitability of paper & board for food contact?

In this session you will hear how the industry has revised the longstanding voluntary Guideline and Good Manufacturing Practice (GMP) as well as the other steps that are being taken to demonstrate compliance and prepare for potential legislation. And, importantly, where do we stand in terms of UK legislation as we leave the EU? Hear the position from experts as it develops post-Brexit.

Speakers:

Adam Hardgrave
Head of Food Contact
Materials, FSA

Tim Chandler,
Senior Scientific
Officer – Food Contact
Materials, FSA

Krassi Kazashka
Technical Director,
FEFCO

SESSION 8 **13:35**
Work-related stress, health and wellbeing **OTHELLO**

Every year the Chartered Institute of Personnel and Development (CIPD) publish an annual survey that examines trends in work-related absence in UK workplaces.

Drawing on the survey results, Rachel will discuss the main reasons for absenteeism, including the effect of 'presenteeism' and 'leaveism', while Dan will address the big issues around mental health and wellbeing.

Speakers:

Rachel Suff
Senior Policy Advisor,
CIPD

Dan Shears
Safety & Environment
Director, GMB National
Health

SESSION 9 **13:35**
Machine procurement, safe interventions and control standards **HAMLET**

Each year the industry invests heavily on purchasing machinery. Unfortunately, some equipment when it arrives in the UK does not meet the required level of safety standards.

New PABIAC guidance for the Procurement and Installation of Machinery is designed to assist all sites in the planning and implementation of purchasing new machinery. In this session, delegates will have an opportunity to ask questions to a panel of experts on machinery procurement issues relative to the guidance.

Speakers:

Paul Grady
Specialist Mechanical
Inspector, HSE

Matt Androsiuk
Principal Safety
Consultant, PILZ

Andy Godbold
Head of Health, Safety
and Environment,
DS Smith Packaging
North Europe

SESSION 11 **13:35**
Supply Chain **KENILWORTH BAR**

A consequence of the ubiquity of paper is the high degree of complexity and wide range of both suppliers and customers that must be engaged.

The session will hear from stakeholders as diverse as finance directors and food industry customers and will examine how the UK's Paper-based Industries can improve their interaction across the totality of their supply chains.

Speakers:

Angela Coleshill
Competitiveness
Director, Food and
Drink Federation

Jane Bevis
Chair, OPRL Ltd

Isabelle Maddock
Group Finance Director,
James Cropper plc

Julian Freeman
Group Sales and
Marketing Director,
Rigid Containers Ltd

SESSION 12 **13:35**
Energy efficiency in a bio-based economy **PROSPERO**

With a mandatory 2050 target for the UK to reduce emissions by 80%, pressure to decarbonise production continues to grow. Added to rapidly increasing energy cost, and a Roadmap charting potential opportunities, there's a refocused attention on energy efficiency.

The speakers in this session will discuss the current energy efficiency options and what industry is doing. From a policy perspective, we will find out about Government support, and what additional support is available through the Industrial Energy Efficiency Accelerator and other funds.

Speakers:

Rory Wallace
Deputy Director
Energy Intensive
Industries and
AgriTech, BEIS

Ulrika Wising
Head of Solar &
Battery Storage,
Macquarie Principal
Finance

Paul McKinney
Senior Manager,
Technology
Programmes,
The Carbon Trust
